ave/day	10750	Total 35-40	4432	8.2	886

Notes

Information is 5 Day Total cannot say which day these speeds occurred

Although our machines are quite accurate there can be a margin of error – not 100% correct

Heavy rain or trees moving can be picked up by machine which is known as a Ghost reading

The '85th percentile' speed is a speed at which 85% of traffic will be travelling at, or below, along a street or road.
